Report on the Guest Lecture on “Smart Warehousing: AI, Robotics & Automation in Modern Warehousing” held on 16.09.2026 at 10.00 AM

Name of the Event: Guest Lecture on the Topic “Smart Warehousing: AI, Robotics & Automation in Modern Warehousing”

Conducted by: Mohamed Sathak - Department of Management Studies (MS-DoMS)

Date: 16th September 2026

Venue: Room No: 105

The Department of Management Studies, in association with IQAC, organized a guest lecture on the topic “Smart Warehousing: AI, Robotics & Automation in Modern Warehousing” on 16th September 2026 at Mohamed Sathak College of Arts and Science. The session was conducted with the objective of providing students with practical exposure to the rapidly evolving technological landscape of warehousing, logistics, and supply chain management.

The guest lecture was delivered by Mr. P. Kartikeyan, Head of Distribution Hub, Nokia Solutions & Networks India Pvt. Ltd. With his industry experience and professional exposure, the resource person provided valuable insights into the changing nature of warehousing operations and the increasing role of emerging technologies in improving the efficiency and effectiveness of distribution and supply chain activities.

The session provided students with practical insights into the application of Artificial Intelligence, Robotics, and Automation in modern warehousing. The lecture covered important areas such as smart inventory management, automated material handling, warehouse robotics, AI-based decision-making, process optimization, and the use of technology to improve operational efficiency and accuracy. The discussion helped students understand how technology can support faster, more accurate, and better-coordinated warehouse operations.

Mr. P. Kartikeyan also highlighted the importance of integrating technology with operational processes in order to meet the growing demands of modern supply chains. The students gained an understanding of how automated systems and intelligent technologies can assist organizations in managing inventory, handling materials, reducing operational errors, and improving overall warehouse performance. The industry-oriented discussion enabled students to appreciate the practical relevance of concepts studied as part of their management curriculum.

The guest lecture served as an enriching learning experience by bridging the gap between classroom learning and real-world industry practices. It enabled students to relate academic concepts in operations, logistics, and supply chain management to their practical applications in modern organizations. The session also encouraged students to explore the opportunities and challenges associated with the adoption of smart technologies in warehousing and distribution.

We express our sincere gratitude to the Management, our Principal, Dr. M. S. Mohamed Jaabir Sir, Vice Principal & IQAC Coordinator, Dr. M. Syed Ali Sir, and Dean – School of Management, Mr. N. Logesh Sir, for their continuous support and encouragement. We also extend our sincere appreciation to Mr. P. Kartikeyan, Head of Distribution Hub, Nokia Solutions & Networks India Pvt. Ltd., for sharing his valuable industry knowledge and practical insights with our students.
